Reasons for referral

Works proposed by the development may impact on existing Council road assets (eg. kerb and gutter, footpath, retaining walls, landscaping) or results in new structures/encroachments being created within the road reserve. Council's Road Asset Managers are required to review the development application and if necessary liaise with Council's Development Engineering and/or Traffic Management Teams to ensure appropriate conditions are considered.

Officer comments

The proposed extension of the boat garage into the car park is noted. It is assumed the shipping containers will be removed.

The plans do not indicate the Ausgrid street light impact by the works. This will need to be relocated.

The survey plans indicate the gutter flows from north to south. The extension of the garage to the west will create a trapped low point preventing gutter flows to the south past the club. The resulting pond of water will collect at the kerb ramp to pathway on the north side of the building. The stormwater issues have not been adequately addressed.

The Landscape Plan proposal indicates changes to the kerb alignment on the east boundary of the car park/basket ball court although no details are provided. Detailed engineering design and Council approval from Transport and Civil Infrastructure Assets and/or Parks Assets will be required prior to obtaining a construction certificate.

The proposal is therefore unsupported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
