**RE: DA2021/0669 - 1193 Barrenjoey Road PALM BEACH NSW 2108**

I totally support the application as it only improves the property while also updates services and utilities to improve safety and access. The structure is within the existing footprint and it does not impact to any serious extent on the valued Summer Bay image. A great development for Palm Beach and Summer Bay in my view. I would have opposed any concrete structure which did not blend in with local amenity.
