**RE: DA2020/1287 - 58 Forest Way FRENCHS FOREST NSW 2086**

I object to the proposed development 2020/1287 at 58 Forest Way, French Forest.

I am concerned about the loss of beautiful native trees and plants, as well as the impacts this may have on native fauna including numerous bird species, possums and bats which live in the area and whose presence is enjoyed by the community. The proposed destruction of these valuable native trees would have a negative environmental outcome as well as decrease the visual amenity of the area and should not be approved.

I have relatives who live adjacent to the proposed development who I visit often. The proposal does not appear to have adequate parking (only 4 spots for 8 bedrooms and no visitor parking). Due to clearways along Forest Way this would lead to an increased need for public parking along Adams Street which is already close to capacity due to existing multi-dwelling developments in the area.
