RE: DA2020/1351 - 1 Bilambee Lane BILGOLA PLATEAU NSW 2107

The height, scale & bulk looks excessive for the site. My real concern is the annexing of the public domain during the construction. My Physiotherapy business is next door & relies on access for my customers - many of whom have disability issues. The parking bays are paramount & I would be badly affected by their temporary removal. Footpath access to my business is also vital. As a dreadful but nearby example, the shop-top development being completed on Bilgola Plateau has annexed 5 out of 12 of the parking spots for 5 years I believe.
