Subject: 189 Riverview Road, Avalon Beach.

I have been a resident in this area for 60 years, living in Trappers Way among the tall spotted gums. I am distressed to see the trend that is appearing in our area for the entire block of land to be cleared and the sides shored up with thick concrete walls to hold back the surrounding area. Sometimes a token tree is saved but the wonderful canopy which is home to birds and wildlife is gone forever. I am hoping that the Council agrees with me and will take steps to ensure that the ratio of land and trees to the size of the building is reinforced. Our roads are clogged with cars and in most areas are reduced to a single lane because we are already overcrowded and slowly the pleasure of living in Avalon is being eroded. Lillian Walter, 30 Trappers Way Avalon Beach.
