RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100

I object strongly to this proposal to replace part of the beautiful bushland on the Brookvale Escarpment. It provides a peaceful sanctuary for wildlife, including wallabies, bandicoots, possums, owls, kookaburras and a myriad of other bird species, blue-tongue lizards etc. There will be a loss of 30% of the healthy trees to be replaced by lots of concrete and a warehouse. This bushland is irreplaceable and the DA should be rejected.
