Hello Development Assessment Team [REDACTED], please arrange removing the tall bamboo trees at the rear of [REDACTED] bordering with my house at [REDACTED]. These trees cover my clothes rotary hoist and also my sunroom, thus I don't get much afternoon sunlight at all. My clothes etc take longer to dry, and my sunroom is much colder during winter. The tree leaves keep dropping on my garden.

My next door neighbour at [REDACTED], also grow tall trees. The branches keep growing to my garden. The wooden fence in the long run could be damaged. The leaves also keep dropping to my garden. It is time consuming for me, an old man to clean them. I would appreciate it if Council would advise them to remove these trees .

My house is surrounded by these unsightly tall trees. It could be a fire hazard. Prevention is better than cure in case of a bush fire. There was recently a survey which found Northern Beaches Council area is the best number one place to live among all the councils in Australia. I like my house environment to look nice and tidy.

Yours sincerely,
Harry Tjong
