

WASTE MANAGEMENT PLAN

49 CHARD ROAD, BROOKVALE

DEMOLITION

There is no demolition, other than the removal of some existing concrete to make way for the new footings for the gas cylinder.

The concrete will be saw cut and place in a skip bin

Approximately 2m³ of concrete will be removed

CONSTRUCTION

There will be very little waste during construction. A small amount of concrete may be left over. This will be added to the concrete removed during excavation

Approximately 1/2m³

The skip will be removed and disposed of at Kimbriki for recycling by the crusher. There will be no waste to landfill

ONGOING

There will be no additional on going waste as a result of the proposal
