Detailed Assessment

D1.5 Building colours and materials

The proposed roof colour and external wall colour submitted with the Schedule of Finishes is consistent with the requirements of this clause.

D1.9 Side and rear building line

The proposed additions are located within one side building setback, being 2m from the side boundary. The side building line setback control refers to one side being 2.5m with the other being 1.0m. The side setback of 2m results in a 20% variation to the control. It is proposed that the majority of the additions will be outside the side building setback. In order to maintain a reasonable level of privacy for the adjoining property at 8 Buyuma Place, it is proposed that the sill height for the bedroom window along the north-western elevation will be 1.5m from the finished floor level. The proposed additions are also located with the rear building setback, being 5.8m from the rear boundary. The rear building line setback control refers to a requirement for 6.5m and therefore results in a proposed variation of 10.8%. With the slope of the site being downwards from the rear boundary, the proposal will maintain a reasonable level of privacy, amenity and solar access when being viewed from the rear adjoining property at 15 Capua Place. The proposal is therefore considered to meet the objectives of this clause.

THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly effect threatened species, populations or ecological communities, or their habitats.

CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

POLICY CONTROLS

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP

- Consistent with the objects of the Environmental Planning and Assessment Act 1979
