RE: DA2020/1756 - 353 Barrenjoey Road NEWPORT NSW 2106

This DA still does not suit the community feel of Newport. By putting parking garages on the road prevents this from ever being a pedestrian area - a place where the community could gather. It also does not meet the NMP provisions and the scale of the development is too large for the area. In addition, the height of the proposed buildings does not meet the requirements of the Development Control Plan and Local Environment Plan
