HERITAGE COMMENTS		
Discussion of reason for referral		
<p>The proposal has been referred to Heritage as the subject property adjoins a heritage conservation area.</p> <p><b>Ruskin Rowe Heritage Conservation Area</b></p>		
Details of heritage items affected		
<p>Details of the item as contained within the Pittwater inventory is as follows:</p> <p><u>Statement of significance:</u> The Ruskin Rowe Heritage Conservation Area is significant in the evolution and pattern of the history of New South Wales for its design principles and patterns that are still clearly legible.</p> <p>The street is named after Harry Ruskin Rowe, a prominent Sydney architect who subdivided the area in 1950. Rowe's vision was to create a special subdivision with large lots in which vegetation would dominate over houses. This area represents the most "pure" example of the character of residential developments which were occurring in the Avalon area after WWII. Ruskin Rowe has research potential for its innovative subdivision design and is also scientifically significant due to the low density nature of the area and the retention of a wide range of fauna, including koalas, bandicoots and native birds.</p> <p><u>Physical description:</u> The first section of Ruskin Rowe runs southwest from Avalon Parade to Elouera Road, then continues for a short distance west before curving again to the southwest and continuing in that direction, terminating in a loop at its southern end. The original subdivision lots are arranged on either side of this central thoroughfare and are long rectangular parcels with houses set well back from the street with a mix of sweeping lawns, remnant native trees and in many cases dense landscaping. The relatively few lots subdivided since 1950 are battleaxe subdivisions of some of the earlier lots.</p>

<b>Consideration of Application</b>		
<p>The proposal seeks consent for a deck extension, pool and new pergola at the rear of the dwelling. The heritage conservation area is located to the rear of the subject property. Given the relatively minor works proposed and rear setback, the proposal is considered to not impact upon the heritage conservation area or its significance.</p> <p>Therefore Heritage raises no objections and requires no conditions.</p> <p>Consider against the provisions of CL5.10 of PLEP.</p> <p>Is a Conservation Management Plan (CMP) Required? No          Has a CMP been provided? No          Is a Heritage Impact Statement required? No          Has a Heritage Impact Statement been provided? No</p>
