RE: DA2019/0278 - 1 / 1 Moore Road FRESHWATER NSW 2096

I object to the proposal of an indoor rock climbing centre at 1/1 Moore road.

This is a village community, which has already lost its only supermarket and is in the midst of another large development. We have empty shops, business leaving the area because of the chaos.

The application for a rock climbing centre does not fit in with a village centre. The parking it will require. the noise. For the venue to be profitable it will need to host parties etc so evenings and weekend will be so busy with music playing. There is a venue identical within a few kms, in an industrial site, where even in the evenings with all the business closed, parking is still a problem. they also have to have doors open all the time due to heat.

The businesses within the freshwater complex, cafe, realestate, beauty, travel agents will all be damaged by the proposal.

I am not against having recreational fun for any age, I have 3 teenagers. But i've asked them and even there think its a rubbish idea.
