RE: DA2024/1249 - 0 East Esplanade MANLY NSW 2095

As regards the above DA application, I am concerned about the live music, which they say will be nightly. As I live across the road from Manly Wharf, I am concerned that this live music will be blaring out nightly to all hours of the morning. I would like Council to check how this live music will be contained and not disturb the residents nearby. On a Friday and Saturday night we hear the live music belting out from either the Steyne or Ivanhoe and we hear it all the way down here. I would hate to have this every night.

Thank you.
