Land to be developed (Address):	Lot 37 DP 226052 , 22 Alkira Circuit NARRAWEENA NSW 2099

Reasons for referral

This application seeks consent development on land, or within 40m of land, containing:

- All Development Applications on
- Actual or potential threatened species, populations, ecological communities, or their habitats;
- Wildlife corridors;
- Vegetation query stipulating that a Flora and Fauna Assessment is required;
- Vegetation query - X type located in both A & C Wards;

And as such, Council's Natural Environment Unit officers are required to consider the likely potential environmental impacts.

Officer comments

The application seeks approval for the construction of an additional storey dwelling and minor modifications to existing dwelling. The application also seeks to establish an Asset Protection Zone (APZ) over the entirety of the site in perpetuity. Council's Natural Environment Unit - Biodiversity referral team have reviewed the application for consistency against the relevant environmental legislation and controls, including:

Biodiversity Conservation Act 2016 (BC Act) Warringah Development Control Plan (WDCP)

- Clause E2 Prescribed Vegetation
- Clause E4 Wildlife Corridors
- Clause E6 Retaining unique environmental features

The application does not require the removal of prescribed trees or vegetation, nor is it likely to impact on nearby biodiversity values. Further, it is noted that the site currently benefits from the 10/50 clearing eligibility, therefore no objection is raised to the establishment of an APZ within the site. Subject to conditions the Bushland and Biodiversity referral team find the application to be consistent against relevant environmental controls.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

Recommended Natural Environment Conditions:**CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE
