SURVEY DISCLAIMER

The intention of this survey is to provide selected detail, levels & contours, for design and DA purposes. The boundaries, shown on the plan, have been identified with offset dimensions from buildings and specific features.

Other than the offset dimensions identifying the boundaries, "Richards & Loftus Surveying Services" takes no responsibility for distances scaled, or measured to the boundaries, from any version of this plan, be it electronic, paper or otherwise.

TREE NOTE

The spread and height of each tree is indicative only and cannot be shown accurately without further survey. The shape and size of the spread of the canopy may vary due to lack of uniformity of the branches and trunk. All tree trunks are measured at DBH, (Diameter at Breast Height) approximately 1.3 metres above ground level.
