RE: DA2020/1063 - 2 / 0 Bennett Street CURL CURL NSW 2096

Traffic, parking and noise will have a very serious impact on our street (Bennett) and all neighbouring residents.

Particularly in Winter when school sports is at its peak and week-end parking becomes an issue.

It's not uncommon to witness aggressive driving and impatient parents when they try to navigate through small residential streets to find a car space or pick up their children.

This DA should not be approved unless the parking and noise impact are properly assessed.
