Officer comments

Council's Natural Environment Unit - Biodiversity referral team have reviewed the application for consistency against the relevant environmental legislation and controls, including:

Biodiversity Conservation Act 2016 (BC Act) Warringah Development Control Plan (WDCP)

- Clause E2 Prescribed Vegetation
- Clause E4 Wildlife Corridors
- Clause E5 Native Vegetation
- Clause E6 Retaining unique environmental features

The application seeks approval to construct a new swimming pool at eastern end of rear yard. The proposal also requires the establishment of an Asset Protection Zone (APZ) to the standards of an Inner Protection Area (IPA) in perpetuity over the property.

The application does not require the removal of prescribed trees or vegetation, nor is it likely to impact on nearby biodiversity values. Subject to conditions the Bushland and Biodiversity referral team find the application to be consistent against relevant environmental controls.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
