To Whom It May Concern

It has come to my attention that Hugo's at Manly has a proposed DA for additional outdoor seating before the Council.

I would like the Council to know that I consider this to be a wonderful idea as we head into the summer months.

The financial viability of not only the hospitality industry but the entire local business community of Manly needs assistance during these unprecedented times. Anything that the Council can do to assist in a Covid safe manner should be welcomed and applauded.

I am a long time customer of Hugo's and have always held both personal and business gatherings there. It is a shining light in attracting people to the area and the approval of this DA can only enhance the areas continuing popularity. Many interstate and international friends when they visit me inquire about Bondi, but I redirect them to Manly and to Hugo's. Let's continue to support and complement this outstanding establishment and make Manly a must see destination.

Regards,
Syd Evans
