RE: DA2023/0669 - 16 Macpherson Street WARRIEWOOD NSW 2102

As you can see from my address, I live 4 doors down from the proposed development in the Sunland development. Parking in our complex is always hard to find and adding a further 28 dwellings will only make it harder. Please ensure that there is plenty of free parking available in this development so that the new owners don't need to take up what limited amount there currently is on Macpherson Street or in the Sunland development next door. Also, I cannot see any plan of the proposed development but assume that the road to the bridge will remain accessible for the local people while the development is happening but please confirm.
