Subject: Development at 231 Whale Beach Road attn Rebecca England

Dear Rebecca,

I refer to our conversation in respect of the above development.

I reside at 11 Morella Road Whale Beach which is one of the houses referred to in a recent communication from the applicant's architect as being impacted by the build.

I request that the applicant be required to have a surveyor erect height poles at the development so that the impact on views to the Beach can be accurately assessed.

I note that there are some poles currently in place but I understand that they do not reflect the current plans.

Attached are photographs taken from our property looking over the sight.

Please advise any questions.

Regards

John Charles Gorman
