Re Proposed Development
Lot 2264 DP 752038
150 Allambie Road.

Dear Sir

I wish to lodge a reason for my objection to the above Development. After a Granny Flat was built the owner put a pathway from the Road to the said granny flat - when it rains water rushes down the path to our property - my late husband made sure our property was adequately drained. Since the development the water floods our property. My main concern that the run off after heavy rain will become worse. So please take into consideration my concern that the drainage from the said development will be totally inadequate. Thank you for my consideration.
Yours faithfully Barbara Kable
