I'm Natalie Cameron,
of 2/28 Moore Rd Freshwater 2096.

I've lived here with my children for 12 years.

My experience has been a positive one since the new hotel owners took over. Previously I could hear the music from inside the pub however since the upgraded glazing I no longer hear anything from inside the venue.

I have noticed the massive upgrade in security, as there's been many people leaving bottles on my front wall, urinating on my front lawn & causing dramas in the past, but since the new Owners, I see security patrols most nights, and many times a night on the wknds. They move on the drunk and disruptive people, even when they aren't from the Hilton. They really look after the community & neighbours.

As far as the noise/music goes, it's so much quieter after the double windows were put in. The neighbours have louder music most wknds.

Freshwater has always had the pub/hotel here, it's not Manly, but it's a family/dog/community friendly place to eat, relax, unwind & socialise.

COVID has shown us how much we need a place like HH to feel like we have place to have a laugh & a drink & catchup with friends.

Every 5th house is renovating most of the time, so the noise will be no difference.

We finally just got a IGA SuperMart after 3yrs, and now we need this HH upgrade for the community. It's all we have close to our home for a fun-filled place to eat, relax, end the day, start the wknd off or chill with the locals

Freshwater needs this upgrade & I live right across the road & welcome the changes & hope to see the future HH.

I nominate Sam Hamdan from 23/30 Moore Road Freshwater, to speak on my behalf at the planning meeting.
