Stormwater design for proposed alterations and additions at 12 Nolan Place

Dear Fiona

Please find attached the drawings describing the stormwater management plan for the alterations and additions at 12 Nolan Place, Balgowlah Heights.

The stormwater design is described in the following Stellen drawings:

Drawing Number	Description	Revision	Date
DR-000	LEGEND	1	19.05.2020
DR-001	PIPE LAYOUT & DETAILS	1	19.05.2020
DR-002	DETAILS	0	19.05.2020

Stormwater Design

The stormwater disposal is to the existing council stormwater line running through the property.

The stormwater design as described by the drawings is generally in accordance with the following:

- i) Australian Standard AS3500.3 Plumbing and Drainage: Part 3 Stormwater Drainage.
- *ii)* Northern Beaches Council PL850 Water Management Policy

Overland Flow

Though a council stormwater pipe runs through the property, the overland flow path for this part of the stormwater system follows Nolan Place downhill in westerly direction and does not pass through the property.

The property is not subject to a major stormwater overland flow path.

Please contact me if you have any inquiries.

Kind regards,

luli
