**Modification of Consent Approval
Sunday Markets
Pittwater R.S.L.**

Attached are photos showing inadequate access to toilets for these Markets.

Despite signage, there are locked gates. The one open gate leads to a retaining wall with no steps to access the toilets. This shows the contempt this operator has for his customers, Council's Approval and civilized common sense.

The Council Planning Department, the Independent Planning Panel and Council Compliance Enforcement need to rectify this situation.

This second Application to Modify the Consent for changed trading hours and extended Trial Period should be rejected.

Yours faithfully

Phil Walker
