**RE: Mod2016/0298 - 80 Evans Street FRESHWATER NSW 2096**

Submission re MOD2016/0298: My objection is for the following reasons:

I understand that this modification is not merely superficial but includes increases to the building heights, that are not clearly stated by the developer, and are not compliant.

The roof lights - the modification should be changed to clearly state and show that these are still flat roof lights that do not protrude above the approved roof heights.
