RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100

I have lived backing onto Allenby Park for 47 years before we downsized. It has wonderful bird life and animal life. Cutting across part of the reserve will with this development will destroy routes animals and birds take when they travel in the park and/or intrude with human activity and noise into their environment further than previously. I do not approve of this development.
