Subject: D.A 2020/0962

To whom it may concern,

I am a young and passionate member of the community who feels strongly about this Development Application to extend the outdoor seating area at Hugo's Manly. Having heard about and seeing the proposed plans this weekend I felt compelled to email straight away.

There's nothing I enjoy more than to sit outside on the Hugo's deck, drink in hand and the breeze floating by. It's a quintessential Sydney experience. Imagine extending this pleasure to approximately 60 more people at a time?

Restaurant owners and patrons alike have been affected by the COVID-19 outbreak and the one thing I think we should be aiming to do as a community is to reinvigorate the bustling eating and drinking industry.

I hope to see Northern Beaches Council invite local businesses to push boundaries and set their goals high for 2021 by approving this D.A 2020/0962 as precedent.

Happy to further discuss my approval of this great idea.

Thanks
