RE: DA2023/1224 62 Myoora Road TERREY HILLS NSW 2084

I'm a local resident and I have two kids that go to TERrey hills public school as well as regular classes at the kids swim school on Myoora. I am extremely concerned about the upcoming traffic near the school with this proposal, let alone the fact that there will be large trucks around a school zone and parents trusting their kids to travel to and from school or parents picking up their kids etc, let alone the traffic disruption. Personally, I was run over on my way to school when I was 12 in 1996. I was crossing the road in front of my dad in his car, a Tarago that was being driven by another local dad dropping off his child ran over my leg as I crossed where there was no crossing or lights and decent morning traffic in wet weather and I slipped while navigating the cars. I had three operations, years of recovery, went to court and also therapy to deal with my fears of cars and also my spatial perception moving forward. I am so passionate about this as a small mistake from a driver or truck driver near a school can hurt a child and change their life, let alone potentially take it away. We have a main road on the other side, what would you risk traffic in a small street and more importantly the safety of a school community for this. The current road works down the road has been a nightmare anyway and that's supposedly temporary. Please reconsider and consult the local community!!
