Freshwater NSW 2096

**RE: Mod2016/0293 - 80 Evans Street FRESHWATER NSW 2096**

This development is causing a huge amount of damage to our residence. We are unable to open our windows whilst they are working due to the amount of dust being sent towards our property. We can no longer use our veranda at all due to copious amounts of dust and our outdoor furniture has been ruined. Our daughters health is 100% at risk due to this dust. Are they meant to be hosing or watering to keep the dust down? THEY DONT!

Look I have never complained to the council or anyone about anything before in my life but this is ridiculous. We can not live a normal life here and we deserve that at the very least. Is there anyway that someone can please come to our residence and see exactly what damage Ganellen is causing?
