Subject: Mod2021/0203

I am writing to express my concern regarding the proposed development on the site if the current fish and chips shop in Palm Beach

The proposal is heavy build, exceeding the current height limits enormously.

It is out of character with our area and should be rejected.

This is not the type of development that we need in this area.

We hope that council is sensitive to the particular characteristics of Palm Beach so that we can maintain our relaxed beach atmosphere.

Thank you

Zena Carter
