**RE: DA2021/1870 - 552 Pittwater Road NORTH MANLY NSW 2100**

I believe there is a sewer pipe running from 548 Pittwater through 550 and into 548 and beyond. There have been blockages in the past, mostly from tree roots. The plan shows a pool placed about the location of the sewer. Possibly not a problem if pool is above ground. No Elevation pictures available to assess. Thank You.
