RE: Mod2016/0293 - 80 Evans Street FRESHWATER NSW 2096

I am making this submission because I am having a lot of difficulty With my lungs and breathing capacity. I believe that a lot of this difficulty is due to the amount of dust and grit in the air from the construction site opposite my unit. Previously, when the weather was cooler, I could at least close the windows. With the warmer weather at present, I must have them open. The dust and grit is throughout our unit and balcony. The car is parked underground 2 levels beneath the road level and is covered in a layer of dirt and dust everyday. I am coughing and choking throughout the night and can not imagine how much more difficult this will be with extended hours. My family is very worried about me. I am elderly and vision impaired and frail. I am unable to move house and do not wish to do,so. Please do not allow extended hours for this construction. It seems to me that having this noise and disruption until 8pm and on Saturdays does not give us residents enough of a peaceful life. I would like to be able to enjoy whatever time I have left. Thank you very much.
