Dear Sir,

I have been informed that the building next door have put in a modification request noted above.

To remove the planter box and replace it with glass, contrary to what was originally approved by Council, would take away our privacy in the living areas and bedrooms. The original planter box would give privacy to all parties. Also, it seems that they propose to extend the balcony of level 3 closer to our building.

We are concerned of the impact this may have on the privacy of our residents as the changes will mean that they will be looking straight into the apartments on the Eastern facing side.

We are strongly opposed to the modifications mentioned in the above proposal.
