**RE: DA2019/0081 - 12 Boyle Street BALGOWLAH NSW 2093**

My previous objections relating to traffic issues, surface water flow on to our property, and the heritage importance of the area still apply. We now have more surface water flowing on to our property from up hill then over the past 30 years.

I do not agree with the Traffic Engineers response which states there will be no significant impact on the road network and parking spaces.

Two cars can not pass in lower Boyle Street due to parking on both sides of the road. A car must wait at the intersection between Boyle and Bentley Streets to give way to a car traveling up Boyle Street. The addition of another driveway on Boyle Street at this very spot will add to this problem.
