RE: DA2020/1097 - 0 Campbell Parade MANLY VALE NSW 2093

DA2020/1097

As a local resident in Campbell Parade directly adjacent to Passmore Reserve, I am deeply concerned that council is again seeking to install sports field lighting.

1. Noise: We currently get noise at night from sports on Nolan Reserve (whistles & yelling) so can only imagine how intrusive it will be from Passmore up to 6 nights per week!
2. Parking & congestion: Campbell Parade & surrounding streets are already choked and it has gotten significantly worse lately with new apartments & the increase in working from home during COVID.
3. Drainage: Unless there is a significant upgrade I can't see how the sport fields can sustain the increased playing time as they struggle as is during the winter months and turn to mud
4. Existing Lighting: There is already existing lighting at Nolan, Millers and David Thomas reserves! Can these not be optimized?
