**RE: DA2020/1097 - 0 Campbell Parade MANLY VALE NSW 2093**

I plead that this proposal not go ahead.

I live with my husband and newborn child in this street. Like hundreds of other residents we deal with constant traffic due to the use of Passmore Reserve during the day, Mackellar Girls High and people taking the "backway" around Manly Vale.

There are increasing parking issues too, as the hundreds of residents rely on street parking - particularly after 5pm. The prospect of having up to three sporting matches or training sessions occurring during an evening would break an already strained parking situation.

Another major concern is the noise. Residents in Campbell Pde can already hear noise from Nolan Reserve. The impact on our rest and sleep would be significant.

I feel particularly concerned for my fellow neighbours who have apartments directly facing the oval who would be subject to light pollution. Two of these apartment blocks back on to the oval with no road division. I would estimate that the distance between the football field and their windows would be around 40-50 meters.

Surely the hundreds of residents in Campbell Pde should be entitled to some respite of an evening from the constant noise of whistles and yelling, traffic and parking congestion and light pollution from Passmore Reserve? Is it reasonable to think that residents living and working within their homes should be subject to these issues for 12 hours per day, 7 days per week?
