**RE: DA2023/0976 - 20 - 22 Macpherson Street WARRIEWOOD NSW 2102**

The 2nd half extension of Mona Vale road widening has just been put on hold by the Labour government. This is vital to the residents of upper Northern Beaches and without it we can't approve projects like this. With accidents blocking traffic for hours at a time the situation will only get worse with extra houses and no proper infrastructure to support it. We also have a major problem with parking on Macpherson St, often delivery drivers have to double park to make deliveries. We also don't have the required infrastructure like schools / medical centres. This should not be approved in its current state.
