ATT: Alex Keller,

**DA2018/1692. Portion 810/ Willamdra Rd NARRAWEENA**

Reference is made to the proposed development at the above area and Aboriginal heritage.

There are known Aboriginal sites in the area although no sites are recorded in the current lot and the proposed development area has been subject to previous disturbance reducing the likelihood of unrecorded Aboriginal sites.

As per the Aboriginal Heritage Office's previous advice for this lot (2013), if areas of *in situ sandstone* outcrop are in the proposed development area (such as overhangs over 1m in height or level platforms over 2m square), the Aboriginal Heritage Office would recommend a preliminary inspection ('due diligence' under the *National Parks and Wildlife Act 1974*) by a qualified Aboriginal heritage professional prior to any development. If there are no existing sandstone outcrops present (or if any outcrops that were present were properly excluded from future impacts), then no further assessment is required and the Aboriginal Heritage Office would not foresee any further Aboriginal heritage constraints on the proposal.

Should any Aboriginal sites be uncovered during earthworks, works should cease and Council, the NSW Office of Environment and Heritage (OEH) and the Metropolitan Local Aboriginal Land Council should be contacted.

If you have any queries, please contact me on (02) 9976 1682.

Yours sincerely,

Phil Hunt, per David Watts  
Aboriginal Heritage Manager
