RE: DA2020/1233 - 68 - 90 Evans Street FRESHWATER NSW 2096

My main concerns re the bowling green development submitted by the Mounties are:

1. The noise pollution particularly for those residents whose apartments are in close proximity to the bowling green.
2. The loss of quiet and peaceful enjoyment of our over 55's environment. Retired people spend more time in their homes and a peaceful atmosphere is so important and a high priority for general health and well being. A 7day a week bowling club would be detrimental to the ambience of Watermark.
3. There is very little open space to sit and enjoy the outdoors and the loss of this amenity would be very restrictive to our community lifestyle and pleasure.
4. The Mounties already operate a bowling club in Manly of which I am a member and I am very happy to continue with this arrangement.
