RE: DA2020/1756 - 353 Barrenjoey Road NEWPORT NSW 2106

Like the idea of shop top development for Newport
This area needs a revamp
However, preserving Robertson Rd as a low traffic area is very important
Would even like to see permanent traffic prohibition explored?
Can the levels be stepped back as they appear to be on Barrenjoey Rd?
More trees/planting preferred like on the other side
Can the building frontage be pushed back a metre or two to increase footpath width and leave open opportunity for tables and chairs
Robertson Rd is perhaps the only place for a group of main road dining and shopping options
Cheers Dave
