RE: Mod2016/0293 - 80 Evans Street FRESHWATER NSW 2096

Ever since the Harbord Diggers have started this enormous project the noise levels during the day have gone through the roof.

- Dust/sand is blowing onto the terrace and into the garage damaging the fabric rooftop of my car.
- Noise have reached unacceptable levels during the day and please let me at least enjoy my night and weekend.

The proposes extensions of working hours is not acceptable and I will fight them until my last breath as it will have a major impact on my life at 73 Evans Street. We even bought a noise cancelling headphone to wear during the day.

I find it despicable that Harbord Diggers has no interest in the people that are so effected with the dirt and noise.

Please let me know when I'm expected for the hearing.
