RE: REV2022/0024 - 394 Barrenjoey Road NEWPORT NSW 2106

I fully support Newport Surf Life Saving Club's development application. Without these changes a vital service to our local community will not be able to function. There are no other viable alternatives. This club and its members have saved so many lives and by denying this application you are putting more lives at risk. The location of this club is vital to its functionality as a life saving asset. The under sand sea wall is the best option and has been developed and modified by the relevant professionals. Please support our local club and the members of our community.
