Good morning

I am writing as a concerned Newport resident about the proposed development application to Robertson Road. I appreciate that there is a process to follow and I have already provide my feedback that this DA is not in keeping with local planning vision and certainly not with local residents wishes. My only request is that the DA is considered against all this local opposition and not just rubber stamped . I am not opposed to development work but I think there is a much better way to transform Robertson Road and this plan with is currently being submitted . If you could please look to facilitating a more collaborative and all encompassing approach which would speak volumes to the tangible legacy I know you would all want to leave behind for future generations to enjoy. Thank you

Kind Regards
