75 Quirk Street
Dee Why 2099

12 October 2020

The General Manager
Northern Beaches Council
Building Control Approvals

Re: 14 Patey Street, Dee Why 2099
Objection MOD 2020/0488.

Dear Sir/Madam,

We, the undersigned, object to the installed roof air-conditioning plant on the roof of the building at the above address.

We are new residents in the area and have been told this plant was not shown on the architectural drawings when neighbours were notified of the proposed development. Therefore neighbours could not object to something they were not told about.

Based on expected noise emissions and pollution 24/7 and the increase in height of the building, the developer should be instructed to remove this plant and relocate to a more suitable location on site to the satisfaction of the neighbours.

We request Council attend to this matter asap.

Yours faithfully

Lindsay Moss
