Subject: Phone tower at RSL War Vets .

Hi ,

My father has lived at the War Vets village for a few years now and it's impossible to get reception in his unit and as he gets older it is important to be able to contact someone in an emergency .He always carries his mobile phone as it gives him a feeling of security if he needs to contact someone as he may not always be able to get to the house phone and at the moment it's useless in and around his unit . I plead to you to convince the council to approve the phone tower as a matter of safety for all the residence .

Thanks Roger Williams .
