RE: DA2023/1224 62 Myoora Road TERREY HILLS NSW 2084

As both a concerned resident and a school parent I cannot express strongly enough, how ill conceived an idea it is to direct more heavy vehicles through an established school zone, let alone on the same road the school is located. Myoora Road is used as a secondary access to Terrey Hills Public School, since the street parking on the Cooyong Road is also manifestly inadequate. We are also seeing with the current hospital construction, how inadequate Myoora Road is for accommodating high volumes of both parked and moving traffic, let alone heavy vehicles. There is a bus stop close to the proposed truck entrance, which will further complicate the traffic situation if the entrance is approved. It is completely unacceptable and unnecessary to further increase the risk of injury and death to vulnerable community members. The applicant must find an alternative access point away from the school zone.
