Officer comments

The proposal seeks approval for alterations and additions to an educational establishment (St Lukes Grammar School).

The proposal has been assessed against the following applicable provisions and controls:

- SEPP (Resilience and Hazards) 2021
- Pittwater LEP 2014 - Clause 7.6 Biodiversity Protection
- Pittwater 21 DCP - Clause B4.6 Wildlife Corridors

The proposed alterations and modifications include a new deck ancillary to an already existing establishment. Therefore, impacts to flora and fauna are unlikely. However, as per the Arboricultural report submitted with the application, potential impacts to an established tree (Tree 49 - *Lophostemon confertus*) are to be mitigated with tree protection measures to be put in place before construction works commence. No native vegetation or fauna habitat would be impacted, the development is designed, sited and will be managed to avoid any significant adverse environmental impact.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
