**RE: DA2020/1063 - 2 / 0 Bennett Street CURL CURL NSW 2096**

Extremely disappointed to hear of the proposal for floodlights in the John Fisher Park. I strongly object to the lighting as it is going to increase traffic and parking congestion in the area. I do not support the lighting.

There are submissions from people as far away as Moore Park not in our LGA! It is preposterous that submissions from there count for anything! I am furious that the council has essentially rigged this proposal!

Poor behaviour from our local council!
