RE: DA2022/0662 - 1 / 63 - 67 The Corso MANLY NSW 2095

Dear Lashta Haidari,

Hope your well.

Thanks for the opportunity to make a comment to NBC regarding DA 2022/0662.

The Drawing No DA 11 denotes a circa 10m high, large, illuminated guitar shaped signage element supported in part from the Corso.

Its certainly not to my taste. I guess some in Vegas might think its great...

This doesn't seem to work at all.

People will walk into it and those who don't still have potential to hit their heads (because of its inclination). I dont think this is acceptable.

Im not sure why NBC would approve this on their land. Did NBC grant its Landowners Consent to the lodgment of a DA encompassing use of its land (The Corso) for founding a big guitar ?

I dont see how it could comply with any of the NBC signage controls. How does a large guitar sit with the Corso Heritage Conservation Area Controls?

We already have 3 fantastic heritage listed and well run Pubs in Manly being Ivanhoe, New Brighton and Steyne.

I dont think we need anymore Pubs in Manly.

Good luck with it.

Cheers
