**RE: DA2018/1924 - Forest Way FRENCHS FOREST NSW 2086**

Traffic flow from this new shopping centre redesign needs to be reconsidered.

The flow of traffic down the back residential roads, Grace Ave, Fitzpatric St, Deakin st, Altona Ave, Bentley St and Brown St will be significantly increased. These residential roads are already very busy at peak hours 7-9am and 5-7pm. It is already difficult for local residents to access their driveways safely or park outside their properties.

The restricted hours on south travel on Grace Ave are rarely observed with motorists ignoring the signs.

These roads are not wide enough to take increased traffic flow. The traffic calming and speed humps in place are not enough to slow the speed of traffic or deter use from no residents.

There should be access and exit for the shopping centre from the main Forestway road.

This keeps local streets safe for children, pedestrians and cyclists.

Please consider this, conduct further traffic flow assessment and amend plans appropriately.

Regards

Sarah Griffiths
